My Portfolio

### Experience

#### **E-Commerce App | React Native**

I developed an E-commerce app using React Native in Expo's Managed workflow and deployed it on Google Play.

#### March 2023

- An efficient user login system that provides login options via Google, phone number, and email.
- Redux is implemented to store application data. The code is clean, functional, and easy to understand.
- Push notifications and the SSLCOMMERZ payment gateway have been successfully implemented.

#### Backend | NodeJS

I have developed a secure and dependable backend for an E-commerce platform using Node.js.

#### March 2023

- Build a REST API backend application that uses tokens, implemented using the Express library in Node.js.
- To ensure the security of the API path on every request, a JWT token is utilized.
- MongoDB is utilized as a cloud-based database to store data. The application undergoes testing with the Jest library before deployment.

#### Relevant Skills

- React Native
- Redux
- Project Management
- Docker
- · Git. GitHub
- React
- · Web Scraping

## **Education History**

#### **Bachelor of Science in Computer Science and Engineering**

Institution: Daffodil International University

Year of Graduation: Mar 2023

• Final year project on E-commerce application (MERN)

• 3.95 out of 4.00

#### Higher School Certificate (HSC)

Institution: President Prof. Dr. Iajuddin Ahmed Residential Model School & College

Year of Graduation: July 2017

• Science

• 4.58 out of 5.00

#### Volunteer Work and Award

#### **Volunteer Teacher**

Daffodil International University 2022 to 2023

I volunteered as a lecturer for the GCPC club, teaching C programming, fundamentals of programming, and data structures to 80 students over one year.

#### Programming Contest

DIU Take-off Programming Contest 2019

I participated in a programming contest during my first semester and placed 8th.

#### Reference

#### Dr. Md. Fokhray Hossain

Professor

Department of Computer Science and Engineering
